[Portfolio site](#) 

I, Sayan Sarkar (he/him), a third-year Electronics and Communication Engineering (ECE) student at Coochbehar Government Engineering College (CGEC), Full Stack MERN Developer with a solid foundation in Java and Data Structures & Algorithms, experienced in building scalable web applications using MERN stack. Currently expanding expertise in Python, Data Science, and Machine Learning to bridge software engineering with intelligent data-driven solutions. Strong problem-solving skills, adaptability, and passion for continuous learning in emerging technologies.

EDUCATION

- 3rd year, Electronics and Communication Engineering, Coochbehar Government Engineering College (Aug 2023 - present.)
- Scored 90.14% in Higher Secondary Examination wbchse board (2022)

PROJECTS

1. **Stayan tourism platform** - Your go-to platform for discovering and booking unique accommodations and experiences worldwide, inspired by Airbnb. Connect with local hosts and unlock unforgettable travel adventures.
2. **MediBloom - mental health platform** - Mental health platform featuring AI-powered chatbots for emotional support, mood tracking, and real-time self-assessment. Skilled in React, Node.js, Express, MongoDB, and integrating advanced AI models to deliver responsive user experiences and scalable solutions. Committed to creating innovative, privacy-first web applications that foster mental wellness.
3. **Version Vault - version control system** - Secure, scalable version control systems (like GitHub) using JWT authentication and AWS deployment. Skilled in MERN stack and integrating cloud storage for repository management, commit history, branching, and collaboration features.
4. **Student Marksheet Management System** - Student Marksheet Management Systems with JWT-based authentication. Skilled in React, Node.js, Express, and MongoDB, delivering intuitive dashboards for students, teachers, and admins to manage marks.

TECHNICAL SKILLS

Language:	C, Java, Python, Javascript, Arduino Programming
Hardware:	Basic Electronics, Arduino IDE, Electrical Works
Frontend Development:	React.js, Tailwind CSS, Framer Motion, Bootstrap
Backend Development:	Node.js, Express.js, REST APIs, MVC Architecture, Firebase
Databases:	MongoDB, SQL
Problem Solving:	Strong foundation in Data Structures & Algorithms, OOP principles
Emerging Skills:	Data Science libraries (NumPy, Pandas, Matplotlib), Machine Learning fundamentals
Version Control & Deployment:	Git, GitHub, Vercel, Netlify, Render, AWS

NON-TECHNICAL SKILLS

- Creative Mind
- Leadership
- Content Writing
- Problem Solving
- **Communication Skills:**
 - Bengali-Native or Bilingual Proficiency
 - English-Professional
 - Hindi-Professional

Experiences & Activities

- **Core team member, Tech-O-Nicks** – Official Tech Club of Coochbehar Government Engineering college
- **Complete JAVA with DSA Certification** – course from a online coding platform
- **MERN internship at Elevate Labs** – Demonstrating exceptional skills and dedication in contributing real world projects and tasks.
- **Intern at Prodigy Infotech** – 1 month remote internship about front-end and back-end development.
- **Co-lead, CGEC Doubthub** – a Tech Platform designed to enhance student's learning experience.
- **Solved 150+ DSA problems at takeUforward** (Popular coding platform)
