I, Sayan Sarkar (he/him), a fourth-year Electronics and Communication Engineering (ECE) student at Coochbehar Government Engineering College (CGEC). Full Stack MERN & Next.js Developer with a solid foundation in Java, C, and Data Structures & Algorithms (DSA), experienced in building scalable, production-ready web applications. Strong grasp of Object-Oriented Programming (OOP) principles, system design fundamentals, and modern full-stack tooling including Docker and Git. Passionate about writing clean, efficient code and solving complex algorithmic problems.

Education

- 4th year, Electronics and Communication Engineering, Coochbehar Government Engineering College Aug 2023 – present
- Scored 90.14% in Higher Secondary Examination, WBCHSE Board 2022

Projects

1. Stayan Tourism Platform — Your go-to platform for discovering and booking unique accommodations and experiences worldwide, inspired by Airbnb. Connect with local hosts and unlock unforgettable travel adventures. Built with the MERN stack featuring real-time search, host dashboards, and booking management.

2. MediBloom – Mental Health Platform — Mental health platform featuring AI-powered chatbots for emotional support, mood tracking, and real-time self-assessment. Skilled in React, Node.js, Express, MongoDB, and integrating advanced AI models to deliver responsive user experiences and scalable solutions. Committed to creating innovative, privacy-first web applications that foster mental wellness.

3. Package Tracker & Mover Site — A full-stack logistics and package tracking platform built with Next.js (App Router) on the frontend and Node.js/Express on the backend. Features real-time shipment status tracking, mover service booking, admin dashboards, JWT authentication, and MongoDB for data persistence. Deployed on Vercel with a REST API backend hosted on Render.

4. Student Marksheet Management System — Student Marksheet Management System with JWT-based authentication. Skilled in React, Node.js, Express, and MongoDB, delivering intuitive dashboards for students, teachers, and admins to manage marks.

Technical Skills

Languages:	C, Java, JavaScript, TypeScript, Arduino Programming
Core CS:	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Problem Solving
Frontend Development:	React.js, Next.js (App Router), Tailwind CSS, Framer Motion, Bootstrap
Backend Development:	Node.js, Express.js, REST APIs, MVC Architecture, Firebase
Databases:	MongoDB, SQL
DevOps & Tooling:	Git, GitHub, Docker, Vercel, Netlify, Render, AWS
Hardware:	Basic Electronics, Arduino IDE, Electrical Works, 3D Printing (FDM)

Non-Technical Skills

Experiences & Activities

- **Core Team Member, Tech-O-Nicks** – Official Tech Club of Coochbehar Government Engineering College
- **Complete JAVA with DSA Certification** – Course from an online coding platform
- **MERN Internship at Elevate Labs** – Demonstrating exceptional skills and dedication in contributing to real-world projects and tasks
- **Intern at Prodigy Infotech** – 1 month remote internship on front-end and back-end development
- **3D Printing Internship** – Hands-on internship focused on FDM 3D printing operations, CAD model preparation, slicing (Cura/PrusaSlicer), printer calibration, and post-processing of printed parts
- **Co-lead, CGEC DoubtHub** – A Tech Platform designed to enhance students' learning experience
- **Solved 100+ DSA problems on LeetCode** (Popular competitive programming platform)
